THREE REASONS WHY OUR ORGANIC COTTON IS SO GOOD

FAIR

As members of the 'BSCI/Business Social Compliance Initiative' we commit ourselves to implementing the BSCI code of conduct as part of our business relations with our manufacturers and therefore to improving the working conditions within our supply chain and to producing our textiles fairly. This includes our clear commitment to the employees' right to freedom of assembly, protection against discrimination, and an adequate remuneration, that is, at least the statutory national minimum wage. Another central component is the occupational safety regulations. An emphatic "yes", our "Bio-Baumwolle!" is fair!

TRANSPARENT

During the production of our collection, the Organic Content Standard 100 (OCS 100) indicates the exact content of ecological material of our products and tracks it throughout the production chain. It is as much as 100 per cent. Logical precondition for the certification: Transparency within the production chain and fully traceable products.

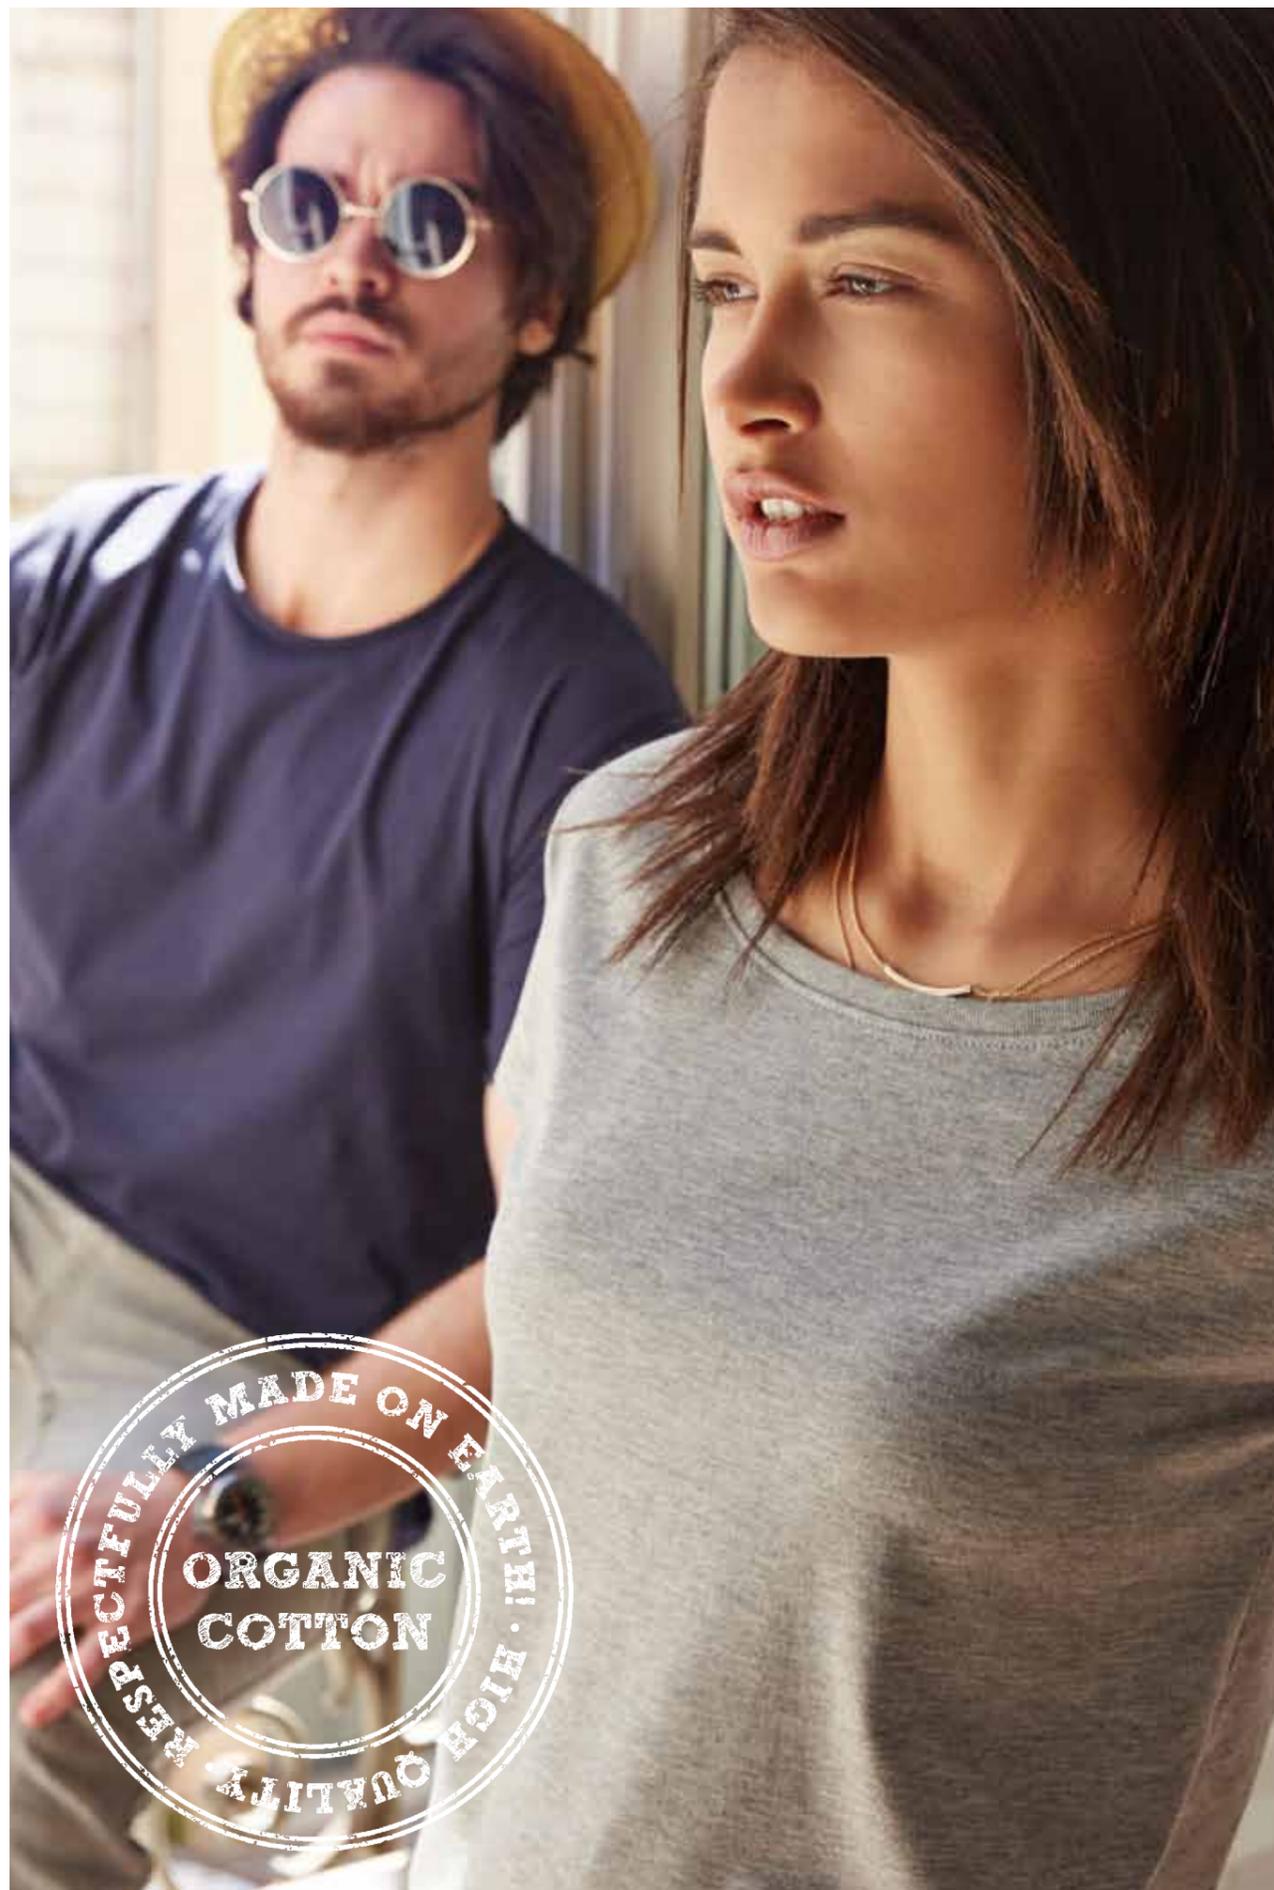

Made with 100%
Organically Grown Cotton
Certified by CU853836

HARMLESS

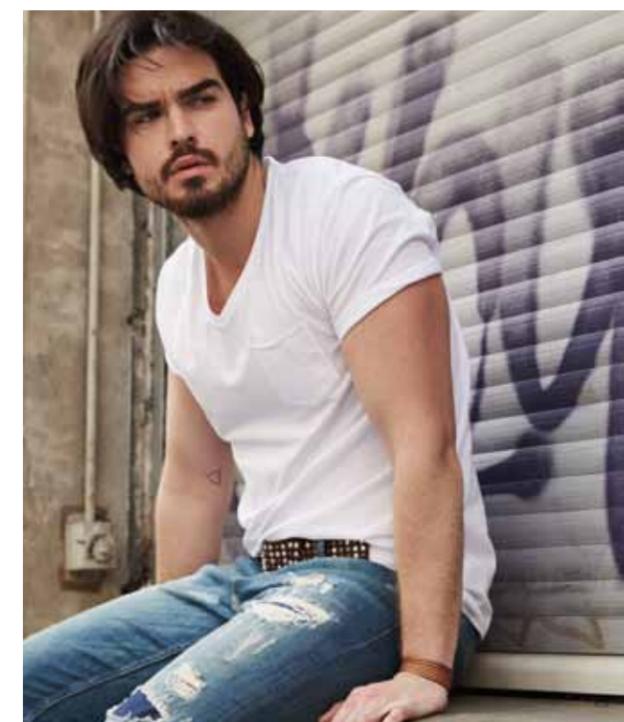

The OEKO-TEX® Standard 100 guarantees that textile and non-textile product components pose no threat to health.

WE LOVE ORGANIC COTTON!

We are into clothes with inner values: The naturalness of the product creates a new awareness of life, as you know that you actively contribute to environmental protection: organic cotton is grown without chemical pesticides or fertilizer. It does not contain any genetically modified fibres. That is why we are great fans of organic cotton!

THE BASIC-T

A beautiful sea of colours. Our Basic-T combines modern look and trendy colour shades with casualness. Suitable for any occasion.

WE LOVE SLUB!

The used-look is back and therefore also T-shirts with worn out looking sleeve-cuffs and rolled edges. As if to say: "Not being perfect is perfect". The base material slub yarn gives the products a casual appearance. The knitting is intentionally irregular; sometimes thicker, sometimes thinner. That is why the fabric appears to be lively and during dyeing, it absorbs the ink differently. Each T-shirt has its own special character. Very cool!

SLUB-T

For individualists: The elaborate spray-print technique and the deliberately irregular colour distribution makes each T-shirt unique.

- **Tear off!®-Label: Our label can be removed, without leaving any residue, to be replaced by your label**

ONE SIZE

BIO-COTTON BEANIE

Our beanie made of soft single jersey is a real all-rounder – stylish, comfortable and cool.

DO YOU WANT TO PRESENT YOUR OWN BRAND?

Many T-shirts have a neck label of the manufacturer. That means the neck label of the manufacturer has to be detached and replaced by the requested label. With our T-shirts made of organic cotton the labels can be torn off. Therefore, our label is called "Tear off@-label".

We relabel the T-shirts for you with a special transfer technique (known from sports articles). Then we put your logo or your brand in the neck area of the T-shirt.
